

- Part 1: University Information

-

- Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow

-

- About AKTU

-

- Dr. A.P.J. Abdul Kalam Technical University (AKTU), formerly known as

- Uttar Pradesh Technical University (UPTU), is one of India's largest

- state technical universities. Established on 8 May 2000 by the

- Government of Uttar Pradesh under Uttar Pradesh Act No. 23 of 2000, the

- university was created to improve the quality of technical education and

- to promote research, innovation, and professional excellence across the

- state. In 2015, the university was renamed in honor of Dr. A.P.J. Abdul

- Kalam, the 11th President of India, renowned aerospace scientist, and

- the "Missile Man of India." AKTU functions primarily as an a liating

- university, regulating and supervising hundreds of government, aided,

- and private colleges throughout Uttar Pradesh. These institutions offer

- undergraduate, postgraduate, and doctoral programs in Engineering,

- Technology, Pharmacy, Architecture, Management, Computer Applications,

- Hotel Management, and various professional disciplines. Today, AKTU is

- recognized as one of the largest technical university systems in India,

- serving lakhs of students through its a liated institutions while

- continuously improving academic standards, digital governance, industry

- collaboration, and research.

-

- Basic Information

-

- Particular Details University Name Dr. A.P.J. Abdul Kalam Technical

- University Former Name Uttar Pradesh Technical University (UPTU)

-

- Particular Details Short Name AKTU Established 8 May 2000 University

- Type State Government Technical University Governing Authority

- Government of Uttar Pradesh Chancellor Governor of Uttar Pradesh

- Headquarters Jankipuram Extension, Lucknow Regional Centre Noida

- Recognition UGC, AICTE (Programs), AIU University Category A liating

- University O cial Website <https://aktu.ac.in>

-

- Major Highlights

-

- One of India's largest a liating technical universities. Supervises

- hundreds of engineering and professional colleges across Uttar Pradesh.

- Offers Undergraduate, Postgraduate, and Doctoral programs. Provides
- standardized curriculum and examination systems. Promotes innovation,
- entrepreneurship, and research. Strong focus on industry-oriented
- education. Digital examination and student service portal. Supports
- startups through incubation and innovation centers. Encourages
- interdisciplinary research and patent development.

•

• Vision

•

- The vision of AKTU is to become a globally recognized center of
- excellence in technical and professional education by fostering
- innovation, research, entrepreneurship, ethical values, and sustainable
- development. The university aims to:

•

- Deliver world-class technical education. Produce globally competent
- professionals.

•

- Promote creativity and innovation. Encourage cutting-edge research.
- Strengthen industry-academia collaboration. Develop socially responsible
- citizens. Contribute towards national technological advancement.

•

• Mission

•

- AKTU is committed to providing quality education that develops
- technically competent professionals capable of meeting global
- challenges. The university fulfills its mission by focusing on the
- following objectives:

•

• 1. Academic Excellence

•

- Deliver high-quality education. Maintain international academic
- standards. Continuously update curriculum. Promote practical and
- experiential learning.

•

• 2. Research & Innovation

•

- Encourage interdisciplinary research. Support patent filing and
- innovation. Promote technology development. Foster research
- collaborations.

•

• 3. Skill Development

•

- Improve technical competencies. Enhance communication skills. Develop leadership qualities. Build problem-solving abilities.
-

• 4. Industry Collaboration

-
- Strengthen partnerships with industries.
-
- Facilitate internships. Organize industrial training. Conduct industry-oriented workshops.
-

• 5. Entrepreneurship

-
- Promote startup culture. Support incubation centers. Encourage innovation-based businesses. Provide entrepreneurial mentorship.
-

• 6. Social Responsibility

-
- Promote ethical values. Encourage environmental sustainability. Develop responsible professionals. Contribute to national development.
-

• University Governance

-
- AKTU follows a well-defined administrative structure established under the Uttar Pradesh Technical University Act. The governance system ensures efficient academic administration, transparency, accountability, and quality assurance.
-

- Chancellor The Governor of Uttar Pradesh serves as the Chancellor of AKTU.
-

• Responsibilities

-
- Acts as the constitutional head of the university. Appoints the Vice-Chancellor. Presides over convocations. Approves important statutory decisions. Ensures compliance with university regulations.
-

- Vice-Chancellor The Vice-Chancellor is the chief executive and academic officer of the university.
-

• Responsibilities

-
- Academic leadership Strategic planning Research promotion Administrative

- supervision Policy implementation Institutional development Industry
- collaboration Student welfare
-
- Registrar The Registrar serves as the chief administrative officer.
-
- Responsibilities
-
- Administrative management Official documentation Record maintenance
- Coordination between departments Conduct of meetings Legal compliance
- Administrative support
-
- Finance Officer Responsible for managing the financial affairs of the
- university.
-
- Responsibilities
-
- Budget preparation Financial planning
-
- Fund allocation Audit management Financial reporting Resource management
-
- Controller of Examination Responsible for the smooth conduct of
- examinations throughout affiliated institutions.
-
- Responsibilities
-
- Semester examinations Evaluation process Result declaration Degree
- issuance Digital examination management Academic records
-
- Academic Council The Academic Council is the highest academic authority.
-
- Functions
-
- Curriculum development Academic regulations Examination reforms Approval
- of new programs Research policies Academic quality enhancement
-
- Executive Council The Executive Council is responsible for
- administrative and financial governance.
-
- Functions
-
- Administrative approvals Infrastructure development Financial decisions
- Faculty recruitment Institutional planning Policy implementation

-
- Board of Studies (BoS) Each discipline has its own Board of Studies.
-
- Functions
-
- Curriculum revision Industry consultation Laboratory improvement
- Introduction of emerging technologies Academic recommendations
-
- Internal Quality Assurance Cell (IQAC) The IQAC works towards continuous
- improvement in academic quality.
-
- Major Activities
-
- Academic audits Faculty development Student feedback analysis Quality
- benchmarking Accreditation support Continuous improvement initiatives
-
- Academic Schools & Departments
-
- AKTU offers multidisciplinary education through various academic
- faculties and departments.
-
- Faculty of Engineering & Technology Major Departments
-
- Computer Science & Engineering Artificial Intelligence Artificial
- Intelligence & Machine Learning Information Technology Electronics &
- Communication Engineering Electrical Engineering Mechanical Engineering
- Civil Engineering Chemical Engineering Biotechnology Agricultural
- Engineering Textile Engineering
-
- Faculty of Computer Applications Programs
-
- Bachelor of Computer Applications (BCA) Master of Computer Applications
- (MCA) Integrated MCA
-
- Areas of Specialization
-
- Software Development Artificial Intelligence Data Science Cloud
- Computing Cyber Security
-
- Faculty of Management Studies Programs
-
- MBA Integrated MBA Ph.D.

-
- Specializations
-
- Finance Marketing Human Resource Management Operations Business
- Analytics Entrepreneurship International Business
-
- Faculty of Pharmacy Programs
-
- Diploma in Pharmacy Bachelor of Pharmacy (B.Pharm) Master of Pharmacy
- (M.Pharm) Ph.D.
-
- Research Areas
-
- Pharmacology Pharmaceutics Pharmaceutical Chemistry Pharmacognosy
- Quality Assurance
-
- Faculty of Architecture & Planning Programs
-
- Bachelor of Architecture Urban Planning Building Design
-
- Sustainable Architecture
-
- Faculty of Applied Sciences Departments
-
- Mathematics Physics Chemistry Environmental Science Humanities English
- Communication
-
- Faculty of Hotel Management & Catering Technology Programs
-
- Hospitality Management Catering Technology Tourism Management Food
- Production Event Management
-
- Doctoral & Research Programs Research opportunities are available in:
-
- Engineering Artificial Intelligence Computer Science Pharmacy Management
- Applied Sciences Emerging Technologies
-
- The university actively promotes interdisciplinary research, innovation,
- patent filing, publications, and collaboration with industries and
- research organizations.
-
- Campus Facilities

-
- AKTU provides modern infrastructure to support teaching, research,
- innovation, and overall student development.
-
- Central Library Features include:
-
- Large collection of books National and international journals E-books
- Digital library Online databases Reading halls Research resources
-
- Smart Classrooms Facilities include:
-
- Interactive smart boards Digital projectors Audio-visual learning
- High-speed internet Hybrid learning support
-
- Advanced Laboratories State-of-the-art laboratories are available for:
-
- Computer Programming Artificial Intelligence Robotics Machine Learning
- Electronics Mechanical Engineering
-
- Civil Engineering Pharmacy Chemistry Physics
-
- Computer Centre Facilities include:
-
- High-performance computers Licensed software Programming environments
- Cloud computing resources High-speed internet
-
- Innovation & Incubation Centre Supports:
-
- Student startups Entrepreneurship Prototype development Industry
- mentorship Innovation projects Patent guidance
-
- Seminar & Conference Halls Used for:
-
- National conferences International conferences Faculty Development
- Programs Workshops Technical seminars Guest lectures
-
- Sports Facilities Indoor and outdoor sports include:
-
- Cricket Football Basketball Volleyball Badminton Table Tennis Athletics
-
- Medical Facilities Available services include:
-

- First-aid center Health check-ups Emergency medical assistance Hospital
- referral support
-
- Wi-Fi Enabled Campus Provides:
-
- Campus-wide internet connectivity Online learning support Digital
- research access Examination support
-
- Cafeteria Facilities include:
-
- Hygienic meals Snacks Beverages Student dining area
-
- Transport Transportation facilities are available for:
-
- Students Faculty Administrative staff
-
- Security Campus security includes:
-
- CCTV surveillance Security personnel Controlled entry points Fire safety
- systems Emergency response mechanisms
-
- Digital Services Students can access:
-
- Online Registration ERP Portal Examination Forms Admit Cards Results
- Academic Calendar Digital Certificates Student Services Portal

-

• Conclusion

-
- Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow, stands as
- one of India's premier state technical universities, playing a vital
- role in shaping technical and professional education in Uttar Pradesh.
- Through its extensive network of a liated institutions, modern
- curriculum, research-driven ecosystem, digital governance, industry
- partnerships, and emphasis on innovation and
-
- entrepreneurship, AKTU continues to prepare highly skilled professionals
- capable of contributing to national development and competing
- successfully in the global workforce.
-

• Part 2: Admission & Registration

-
- B.Tech Admissions -- Dr. A.P.J. Abdul Kalam Technical University (AKTU),
- Lucknow
-

• Admission & Registration

-
- Admission to the Bachelor of Technology (B.Tech.) program at Dr. A.P.J.
- Abdul Kalam Technical University (AKTU) is conducted through a
- transparent, merit-based process as per the guidelines issued by the
- Government of Uttar Pradesh, AKTU, and the Dr. A.P.J. Abdul Kalam
- Technical University (AKTU) Admission Cell. Admissions are primarily
- based on the Joint Entrance Examination (JEE Main) ranks followed by
- UPTAC (Uttar Pradesh Technical Admission Counselling). The university
- follows reservation policies, eligibility criteria, and admission
- procedures prescribed by the Government of Uttar Pradesh. The admission
- process consists of eligibility verification, online counselling, seat

- allotment, document verification, fee payment, student registration,
- identity card generation, and Academic Bank of Credits (ABC)
- registration.
-
- Eligibility Criteria
-
- Candidates seeking admission to the B.Tech. program must satisfy the
- eligibility conditions prescribed by AKTU and UPTAC.
-
- Educational Qualification Applicants must have:
-
- Passed 10+2 (Intermediate) examination from a recognized board. Studied
- Physics and Mathematics as compulsory subjects.
-
- One of the following as the third subject: Chemistry Computer Science
- Information Technology Biotechnology Technical Vocational Subject
- Biology Informatics Practices Agriculture Engineering Graphics Business
- Studies
-
- Minimum Qualifying Marks General/OBC/EWS Candidates:
-
- Minimum 45% aggregate marks in Physics, Mathematics, and one optional
- subject.
-
- SC/ST Candidates:
-
- Minimum 40% aggregate marks.
-
- Entrance Examination Admission is generally based on:
-
- JEE Main Rank UPTAC Counselling
-
- Vacant seats, if any, may be filled according to AKTU/UPTAC admission
- guidelines through institute-level admissions where permitted.
-
- Age Limit There is generally no upper age limit for admission into
- B.Tech. programs unless specified by regulatory authorities.
-
- Reservation Policy
-
- Reservation is provided as per Government of Uttar Pradesh norms for
- categories including:

-
- Scheduled Caste (SC) Scheduled Tribe (ST) Other Backward Classes
- (OBC-NCL) Economically Weaker Section (EWS) Persons with Disabilities
- (PwD) Freedom Fighter Dependents Defence Personnel Wards Female
- Candidates (where applicable)
-
- Admission Process
-
- The B.Tech admission process is carried out in multiple stages.
-
- Step 1: Online Registration Candidates register online through the UPTAC
- counselling portal. During registration, applicants provide: Personal
- Information Academic Details Contact Information Category Details JEE
- Main Application Number Choice of Colleges and Branches
-
- Step 2: Application Fee Payment Candidates pay the prescribed
- counselling/application fee through online payment modes such as:
-
- Debit Card Credit Card Net Banking UPI
-
- Step 3: Choice Filling Students select:
-
- Preferred Colleges Engineering Branches Order of Preference
-
- Choices should be filled carefully since seat allotment depends upon:
-
- JEE Main Rank Category Seat Availability Candidate Preferences
-
- Step 4: Seat Allotment AKTU conducts multiple counselling rounds. Seat
- allotment is based on: Merit Reservation Policy Availability of Seats
- Candidate Preferences Candidates can: Freeze Seat Float Seat Participate
- in further counselling rounds (as per rules)
-
- Step 5: Seat Confirmation After allotment, candidates:
-
- Download Seat Allotment Letter. Pay Seat Acceptance Fee. Report for
- document verification.
-
- Step 6: Reporting to Institute Candidates report physically to the
- allotted college within the prescribed schedule. Activities include:
- Original document verification Fee submission Admission confirmation
- Department allotment

-
- Document Verification
-
- Document verification is a mandatory step before admission confirmation.
- Students must produce original documents along with self-attested
- photocopies.
-
- Required Documents Academic Documents
-
- Class 10 Marksheet Class 10 Certificate Class 12 Marksheet Class 12
- Passing Certificate
-
- Entrance Examination Documents
-
- JEE Main Score Card JEE Main Admit Card (if required)
-
- Counselling Documents
-
- UPTAC Registration Slip Seat Allotment Letter Fee Payment Receipt
-
- Identity Documents
-
- Aadhaar Card PAN Card (if available)
-
- Category Certificates (if applicable)
-
- SC Certificate ST Certificate OBC-NCL Certificate EWS Certificate PwD
- Certificate
-
- Other Documents
-
- Character Certificate Transfer Certificate (TC) Migration Certificate
- (if applicable) Medical Fitness Certificate Passport Size Photographs
- Income Certificate (if required) Domicile Certificate (for UP quota)
-
- Verification Process The institute verifies:
-
- Academic qualifications Category eligibility Identity proof Original
- certificates Reservation documents Fee payment status
-
- Any discrepancy may result in cancellation of admission.
-

- Student Registration
-
- After admission confirmation, every student is officially registered with
- AKTU.
-
- Registration creates the student's academic record in the university
- database.
-
- Registration Activities Students complete:
-
- Personal Information Verification Parent/Guardian Details Address
- Verification Academic Record Entry Contact Information Aadhaar Linking
- Photograph Upload Signature Upload
-
- Enrollment Number Upon successful registration, each student receives a
- unique:
-
- University Enrollment Number
-
- This enrollment number is used throughout the academic program for:
-
- Semester Registration Examinations Results Degree Issuance Scholarships
- Academic Records
-
- ERP Portal Registration Students receive access to the institute's ERP
- portal for:
-
- Attendance Examination Forms Internal Marks
-
- Academic Calendar Fee Payment Result Viewing Notices Assignments
-
- Identity Card (Student ID)
-
- After successful admission and registration, students are issued an official Identity Card. The ID card serves as the primary proof of identity
- within the institution.
-
- Information Printed on ID Card
-
- Student Name Enrollment Number Roll Number Photograph Department Branch
- Semester Blood Group (if applicable) Date of Birth Institute Name
- Emergency Contact Number Validity Period

-
- Uses of Student Identity Card The ID card is required for:
-
- Campus Entry Library Access Laboratory Access Examination Entry Hostel
- Entry Sports Facilities
-
- Workshops Technical Events Placement Drives Student Verification
-
- Students are advised to carry their ID card at all times while on
- campus.
-
- Academic Bank of Credits (ABC)
-
- The Academic Bank of Credits (ABC) is a digital credit repository
- introduced under the National Education Policy (NEP) 2020 by the
- Government of India. AKTU has adopted the ABC framework for eligible
- students to facilitate digital storage and transfer of academic credits.
- The Academic Bank of Credits enables students to securely store,
- accumulate, transfer, and redeem credits earned from recognized higher
- education institutions.
-
- Objectives of ABC
-
- Promote academic flexibility. Enable multiple entry and exit options.
- Facilitate credit transfer between institutions. Maintain a secure
- digital academic record. Support lifelong learning.
-
- ABC ID Each student must generate a unique ABC ID (Academic Bank of
- Credits ID). The ABC ID is linked with: Aadhaar DigiLocker Academic
- Records
-
- Registration Process
-
- Students create an ABC ID by:
-
- 1. Registering on DigiLocker.
- 2. Accessing the Academic Bank of Credits (ABC) portal.
- 3. Verifying Aadhaar details. N. Generating the unique ABC ID. U.
- Submitting the ABC ID to the institute for university records.
-
- Benefits of ABC
-

- Secure digital storage of academic credits. Easy transfer of credits
- between participating institutions. Digital verification of academic
- achievements. Simplified academic mobility. Supports interdisciplinary
- learning. Permanent digital academic record. Facilitates implementation
- of NEP 2020 reforms.
-
- Credit Transfer Under the ABC system, students may:
-
- Accumulate credits from approved institutions. Transfer eligible
- credits. Resume education after academic breaks. Utilize earned credits
- towards degree completion, subject to university regulations.
-
- Importance for AKTU Students For AKTU B.Tech. students, ABC registration
- is encouraged/required as per the prevailing guidelines of the
- university and the Government of India. Maintaining an active ABC ID
- helps ensure that academic credits are digitally recorded and can be
- verified for future educational and professional purposes.
-
- Summary
-
- The admission and registration process for the AKTU B.Tech. program is
- designed to ensure transparency, fairness, and compliance with
- government regulations. From eligibility verification and UPTAC
- counselling to document verification, student registration, identity
- card issuance, and Academic Bank of Credits (ABC) registration, each
- step contributes to establishing a student's official academic record and
- supporting a seamless educational journey.
-
- Part 3: Academic Program Structure
-
- B.Tech Program Structure -- AKTU
-
- B.Tech Program Overview
-
- The Bachelor of Technology (B.Tech.) program at Dr. A.P.J. Abdul Kalam
- Technical University (AKTU) is a four-year undergraduate degree designed
- to provide students with strong theoretical knowledge, practical skills,
- and industry exposure. The curriculum follows the guidelines of AICTE,
- UGC, and the National Education Policy (NEP), ensuring a balanced mix of
- foundational sciences, engineering principles, professional courses,
- laboratory work, projects, internships, and skill development. The first
- year is common for all engineering branches (except Agriculture

- Engineering and Biotechnology), providing a strong foundation in
- mathematics, physics, chemistry, programming, engineering sciences,
- communication skills, and environmental studies.
- :contentReference\[\oaicite:0\] {index=0}
-
- Duration (4 Years / 8 Semesters)
-
- Particular Details Program Bachelor of Technology (B.Tech.) Duration 4
- Years Total Semesters 8 Academic Pattern Semester System First Year
- Common for Most Branches Degree Awarded Bachelor of Technology (B.Tech.)
-
- Choice Based Credit System (CBCS)
-
- AKTU follows the Choice Based Credit System (CBCS), allowing students to
- earn academic credits through theory, practical courses, projects,
- electives, and internships.
-
- Features
-
- Credit-based learning Continuous internal assessment Semester-end
- examinations Elective course selection Skill-based learning
- Project-oriented education Internship opportunities
-
- Credit Requirements
-
- The B.Tech. curriculum is divided into credits, where each subject
- contributes a fixed number of credits based on lectures, tutorials, and
- practical sessions. Typical credit distribution includes:
-
- Theory Courses Laboratory Courses Projects Internships Audit Courses
- Value Added Courses
-
- The first year consists of approximately 22 credits per semester,
- excluding qualifying audit courses.
-
- Semester System
-
- The academic year is divided into two semesters:
-
- Odd Semester (Semester I, III, V, VII) Even Semester (Semester II, IV,
- VI, VIII)
-

- Each semester consists of:
-
- Classroom lectures Tutorials Practical/Laboratory sessions Internal
- assessments End Semester Examination (ESE)
-
- Course Categories
-
- Basic Sciences (BS) Foundation subjects that strengthen analytical and
- scientific thinking.
-
- Examples
-
- Engineering Physics Engineering Chemistry Engineering Mathematics
- Environmental Science
-
- Engineering Sciences (ES) Introduces fundamental engineering concepts
- common to all branches.
-
- Examples
-
- Basic Electrical Engineering Basic Electronics Engineering Programming
- for Problem Solving Mechanical Engineering Engineering Graphics Workshop
- Practice
-
- Professional Core (PC) Core branch-specific subjects introduced from the
- second year onwards.
-
- Examples include:
-
- Data Structures Digital Electronics Operating Systems Database
- Management Systems Computer Networks
-
- (Varies according to branch.)
-
- Professional Electives (PE) Advanced subjects chosen by students
- according to their interests. Examples: Artificial Intelligence Machine
- Learning Cloud Computing Cyber Security Internet of Things
-
- Open Electives (OE) Courses offered by other departments to encourage
- interdisciplinary learning. Examples: Entrepreneurship Economics Data
- Analytics Environmental Studies
-

- Humanities & Social Sciences (HS) Courses that improve communication, ethics, and personality development. Examples: Soft Skills
-
- English Language Lab Professional Communication
-
- Projects Students undertake:
-
- Mini Projects Major Projects Capstone Projects
-
- These projects help students apply theoretical concepts to real-world engineering problems.
-
- Internships AKTU encourages students to gain industrial exposure through internships. Students are required to complete: Summer Internship
- Industrial Training NPTEL/Skill Courses (where applicable)
-
- A 4-week Summer Internship/NPTEL Course is conducted after the Second Semester, and its evaluation is carried out during the Third Semester.
-
- First Year Curriculum Overview
-
- The first year curriculum is common to all B.Tech. branches (except Agriculture Engineering and Biotechnology) and includes:
-
- Semester I
-
- Engineering Physics / Engineering Chemistry Engineering Mathematics-I
- Fundamentals of Electrical Engineering / Electronics Engineering
- Programming for Problem Solving / Mechanical Engineering Environment & Ecology / Soft Skills
-
- Physics/Chemistry Lab Electrical/Electronics Lab Programming/English
- Language Lab Engineering Graphics / Workshop Practice
-
- Total Credits: 22
-
- Semester II
-
- Engineering Chemistry / Engineering Physics Engineering Mathematics-II
- Fundamentals of Electronics / Electrical Engineering Mechanical
- Engineering / Programming for Problem Solving Soft Skills / Environment & Ecology Chemistry/Physics Lab Electronics/Electrical Lab

- English/Programming Lab Workshop Practice / Engineering Graphics Sports & Yoga / NSS (Audit Course)
-
- Total Credits: 22
-
- Program Outcome
-
- The AKTU B.Tech. curriculum is designed to:
-
- Build strong engineering fundamentals. Develop analytical and problem-solving skills. Promote practical and laboratory-based learning.
- Enhance communication and teamwork. Encourage innovation and entrepreneurship. Prepare students for higher education and industry.
- Foster ethical, professional, and lifelong learning skills.
-
- Second Year (B.Tech.) Curriculum
-
- Dr. A.P.J. Abdul Kalam Technical University (AKTU)
-
- Second Year Overview
-
- The Second Year (3rd & 4th Semester) marks the beginning of branch-specific studies in the AKTU B.Tech. curriculum. Students move from basic engineering concepts to core computer science subjects, gaining practical knowledge through laboratories, workshops, mini-projects, and internships. The curriculum emphasizes programming, system design, problem-solving, communication skills, and professional ethics while preparing students for advanced courses in later semesters.
-
- Semester III
-
- Theory Subjects
-
- Subject Category Credits Mathematics III / Science Based Open Elective
- BS / OE 4 Universal Human Values & Professional Ethics / Technical
- Communication HS / VA 3 Data Structures Professional Core 4 Computer
- Organization & Architecture Professional Core 4 Discrete Structures & Theory of Logic Professional Core 3
-
- Subject Category Credits Cyber Security / Python Programming Value Added
- 2
-

- Practical Courses
-
- Data Structures Lab Computer Organization Lab Web Designing Workshop
- Internship Assessment / Mini Project
-
- Total Credits: 25
-
- Semester IV
-
- Theory Subjects
-
- Subject Category Credits Mathematics III / Science Based Open Elective
- BS / OE 4 Technical Communication / Universal Human Values HS / VA 3
- Operating Systems Professional Core 4 Theory of Automata & Formal
- Languages Professional Core 4 Object-Oriented Programming with Java
- Professional Core 3 Python Programming / Cyber Security Value Added 2
- Practical Courses
-
- Operating System Lab Java Programming Lab Cyber Security Workshop Sports
- & Yoga / NSS-II (Audit)
-
- Total Credits: 23
-
- Core Subjects Covered
-
- During the second year, students study important Computer Science
- subjects including:
-
- Data Structures Computer Organization & Architecture Discrete
- Mathematics Operating Systems Object-Oriented Programming using Java
- Theory of Automata & Formal Languages Technical Communication Human
- Values & Professional Ethics Python Programming Cyber Security
-
- These subjects build the foundation for advanced topics such as Database
- Management Systems, Computer Networks, Software Engineering, Artificial
- Intelligence, and Machine Learning.
-
- Laboratory & Practical Learning
-
- Students gain practical experience through:
-
- Data Structures Lab Computer Organization Lab Operating System Lab Java

- Programming Lab Web Designing Workshop Cyber Security Workshop
-
- The laboratories focus on coding, debugging, algorithm implementation,
- web development, operating system concepts, cybersecurity practices, and
- software development.
-
- Mini Project & Internship
-
- AKTU encourages students to apply classroom knowledge through practical
- learning. Students undertake:
-
- Mini Project Internship Assessment Summer Internship (4 Weeks)
-
- The 4-week Summer Internship is completed after the Fourth Semester and
- evaluated during the Fifth Semester.
-
- Learning Outcomes
-
- After completing the second year, students are expected to:
-
- Develop efficient programming skills using C, Java, and Python. Understand
- core data structures and algorithms. Learn computer architecture and
- operating system concepts. Build responsive web applications using HTML,
- CSS, JavaScript, and Bootstrap. Understand automata theory and formal
- languages. Gain practical knowledge of cybersecurity fundamentals.
- Improve communication skills and professional ethics. Complete
- industry-oriented projects and internships.
-
- Summary
-
- The Second Year serves as the foundation of the Computer Science
- Engineering curriculum at AKTU. It introduces students to essential core
- subjects, practical laboratories, professional communication,
- cybersecurity, and project-based learning. The combination of theory,
- hands-on experience, and industrial exposure prepares students for
- advanced technical courses, internships, research, and placement
- opportunities in the upcoming years.
-
- Third Year (B.Tech.) Curriculum
-
- Computer Science & Engineering (Artificial Intelligence) -- AKTU
-

- Third Year Overview
-
- The Third Year (5th & 6th Semester) focuses on advanced Computer Science
- and Artificial Intelligence concepts. Students study core subjects such
- as Database Management Systems, Artificial Intelligence, Design and
- Analysis of Algorithms, Software Engineering, Computer Networks, and
- Data Analytics while selecting departmental and open electives based on
- their interests. The curriculum emphasizes practical learning through
- laboratories, mini-projects, internships, and industry-oriented elective
- courses.
-
- Semester V
-
- Theory Subjects
-
- Subject Category Credits Database Management System Professional Core 4
- Artificial Intelligence Professional Core 4 Design & Analysis of
- Algorithms Professional Core 4 Departmental Elective -- I Elective 3
- Departmental Elective -- II Elective 3 Constitution of India / Indian
- Traditional Knowledge Mandatory 0
-
- Practical Courses
-
- Database Management System Lab Artificial Intelligence Lab Design &
- Analysis of Algorithms Lab Mini Project / Internship Assessment
-
- Total Credits: 23
-
- Semester VI
-
- Theory Subjects
-
- Subject Category Credits Software Engineering Professional Core 4 Data
- Analytics Professional Core 4 Computer Networks Professional Core 4
- Departmental Elective -- III Elective 3 Open Elective -- I Open Elective
- 3 Constitution of India / Indian Traditional Knowledge Mandatory 0
- Practical Courses
-
- Software Engineering Lab Data Analytics Lab Computer Networks Lab
-
- Total Credits: 21
-

- Departmental Electives
-
- Students can choose specialization subjects based on their interests.
-
- Elective I
-
- Mathematical Foundation of AI, ML & Data Science Data Warehousing & Data Mining Business Intelligence & Analytics Object-Oriented System Design with C++
-
- Elective II
-
- Cloud Computing Natural Language Processing (NLP) Applications of Soft Computing Image Processing
-
- Elective III
-
- Cyber Forensic Analytics Image Analytics Social Media Analytics & Data Analysis Machine Learning Techniques
-
- Core Subjects Covered
-
- The third-year curriculum introduces advanced topics including:
-
- Database Management Systems (DBMS) Artificial Intelligence Design & Analysis of Algorithms Software Engineering Data Analytics Computer Networks Machine Learning Fundamentals Natural Language Processing Cloud Computing Data Warehousing & Mining Image Processing Cyber Forensics
-
- These subjects prepare students for industry roles, research, internships, and placement opportunities in AI, Software Development, Data Science, and Cloud Computing.
-
- Laboratory & Practical Learning
-
- Students gain practical experience through:
-
- DBMS Lab Artificial Intelligence Lab Algorithm Design Lab Software Engineering Lab Data Analytics Lab Computer Networks Lab The laboratories focus on: SQL & Database Design AI Programming using Python Algorithm Implementation Software Development Network Configuration Data Analysis & Visualization

-
- Mini Project & Internship
-
- Students undertake:
-
- Mini Project Internship Assessment Summer Internship (4 Weeks)
-
- The internship completed after the 6th Semester is assessed during the
- 7th Semester, providing real-world industrial exposure and practical
- application of classroom concepts.
-
- Learning Outcomes
-
- After completing the third year, students will be able to:
-
- Design and manage relational databases. Develop AI-based solutions using
- intelligent algorithms. Analyze and optimize algorithms for complex
- problems. Design reliable software systems using Software Engineering
- principles. Understand computer networking concepts and protocols.
- Analyze large datasets using modern analytics techniques. Apply Machine
- Learning and AI concepts to real-world applications. Build
- industry-ready projects using advanced technologies.
-
- Summary
-
- The Third Year is the most technically intensive phase of the AKTU
- B.Tech. program. It combines advanced Computer Science fundamentals with
- Artificial Intelligence, Data Analytics, Software Engineering, and
- industry-focused electives. Through laboratories, projects, and
- internships, students develop the practical skills required for
- placements, higher studies, research, and careers in software
- development, AI, cloud computing, cybersecurity, and data science.
-
- Fourth Year (B.Tech.) Curriculum
-
- Computer Science & Engineering (Artificial Intelligence) -- AKTU
-
- Fourth Year Overview
-
- The Fourth Year (7th & 8th Semester) is the final phase of the B.Tech.
- program, focusing on advanced Artificial Intelligence technologies,
- research, industry-oriented electives, innovation, entrepreneurship,

- internships, and major projects. Students apply the knowledge gained
- throughout the program to solve real-world engineering problems while
- preparing for placements, higher studies, startups, and research
- careers.
-
- Semester VII
-
- Theory Subjects
-
- Subject Category Credits Deep Learning Professional Core 3 Departmental
- Elective -- IV Professional Elective 3 Open Elective -- II (MOOCs) Open
- Elective 3 Practical & Project Work
-
- Deep Learning Lab Mini Project / Internship Assessment Project -- I
- Startup & Entrepreneurial Activity
-
- Total Credits: 19
-
- Semester VIII
-
- Theory Subjects
-
- Subject Category Credits Open Elective -- III (MOOCs) Open Elective 3
- Open Elective -- IV (MOOCs) Open Elective 3 Project Work
-
- Project -- II (Major Project)
-
- Total Credits: 16
-
- Departmental Elective -- IV
-
- Students may choose one of the following advanced specialization
- subjects:
-
- Internet of Things (IoT) Cryptography & Network Security Principles of
- Generative AI Blockchain Architecture Design
-
- These electives provide students with exposure to emerging technologies
- and current industry trends.
-
- Core Subjects Covered
-

- The fourth-year curriculum focuses on advanced technologies including:
-
- Deep Learning Generative AI
-
- Internet of Things (IoT) Cryptography & Network Security Blockchain
- Technology Research Methodology Software Project Development
- Entrepreneurship & Innovation
-
- Students also complete open electives through SWAYAM/NPTEL/MOOCs,
- promoting interdisciplinary learning and self-paced education.
-
- Laboratory & Practical Learning
-
- Students gain practical experience through:
-
- Deep Learning Lab Mini Project Internship Assessment Project Development
- AI Model Implementation Research & Technical Documentation
-
- The laboratory emphasizes the use of Python, TensorFlow, Keras, and
- PyTorch for implementing neural networks, image classification, and
- real-world deep learning applications.
-
- Projects & Internship
-
- The final year places significant emphasis on project-based learning.
- Students undertake: Mini Project / Internship Assessment (after 6th
- Semester) Project -- I (Semester VII) Project -- II (Major Project)
- (Semester VIII)
-
- Projects involve problem identification, system design, implementation,
- testing, documentation, and presentation. Students are encouraged to
- develop industry-oriented, research-based, or startup-focused solutions.
-
- Startup & Entrepreneurship
-
- AKTU encourages innovation through a dedicated Startup & Entrepreneurial
- Activity component. Students participate in: Startup Ideation Business
- Model Development Innovation Challenges Entrepreneurship Activities
- Product Development Pitch Presentations
-
- A minimum of 60 hours of startup or entrepreneurial activity is required
- before assessment in the seventh semester.

-
- Learning Outcomes
-
- After completing the fourth year, students will be able to:
-
- Design and implement Deep Learning models. Apply Artificial Intelligence
- to real-world applications. Develop industry-ready software solutions.
- Work with emerging technologies such as Generative AI, Blockchain, IoT,
- and Cyber Security. Conduct research and technical documentation. Build
- innovative products and startup ideas. Demonstrate professional,
- teamwork, and project management skills. Prepare for placements, higher
- education, entrepreneurship, and research careers.
-
- Summary
-
- The Fourth Year represents the culmination of the AKTU B.Tech. program,
- integrating advanced AI concepts, emerging technologies, innovation,
- entrepreneurship, internships, and major projects. Through practical
- implementation, research, and industry exposure, students graduate with
- the technical expertise and professional skills required for successful
- careers in Artificial Intelligence, Software Development, Data Science,
- Cyber Security, Cloud Computing, and related domains.
-
- Part 4: Academic Calendar
-
- Academic Session 2026--27
-
- Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow
-
- Academic Calendar Overview
-
- The Academic Calendar serves as the official schedule for all academic
- activities conducted by Dr. A.P.J. Abdul Kalam Technical University
- (AKTU). It outlines important dates related to the commencement of
- classes, admissions, examinations, practicals, result declaration,
- internships, university festivals, and vacations. The calendar ensures
- the smooth functioning of academic activities throughout the session
- while maintaining uniformity across all affiliated institutions.
-
- Odd Semester (Session 2026--27)
-
- Activity Date Commencement of Classes (III, V, VII & IX Semester) 14

- July 2026 Commencement of Classes (First Year -- All Programs) 01 August
- 2026 Last Date for Admission List Submission 01 September 2026 (B.Tech.
- & Other Programs) Last Date for Enrollment & Registration 15 September
- 2026 (30 September for B.Pharm.) AKTU Sports Fest (Zonal Level) 15--17
- October 2026 AKTU Sports Fest (State Level) 29--31 October 2026
-
- Activity Date Last Date for Examination Form Submission 01 November 2026
- Last Date for Sessional Marks Submission 16 November 2026 End Semester
- Theory Examinations 24 November -- 27 December 2026 Practical
- Examinations As per University Schedule Evaluation of Answer Sheets
- Begins 09 December 2026 End Semester Result Declaration 15 January 2027
- Winter Vacation Till 31 December 2026
-
- Even Semester (Session 2026--27)
-
- Activity Date Commencement of Classes (II, IV, VI, VIII & X Semester) 01
- January 2027 AKTU Literary, Management & Technical Fest (Zonal Level)
- 07--09 January 2027 AKTU Literary, Management & Technical Fest (State
- Level) 21--23 January 2027 AKTU Arts & Cultural Fest (Zonal Level)
- 04--06 February 2027 AKTU Arts & Cultural Fest (State Level) 18--20
- February 2027 Last Date for Examination Form Submission 31 March 2027
- Last Date for Sessional Marks Submission 15 April 2027 End Semester
- Theory Examinations 20 April -- 20 May 2027 Practical Examinations
- 01--24 May 2027 Last Date for Practical Marks Submission As per
- University Schedule Evaluation of Answer Sheets Begins 01 May 2027 End
- Semester Result Declaration 30 June 2027 Summer Training / Internship
- After End Semester Examination -- 12 July 2027 Summer Vacation Last
- Examination Day -- 12 July 2027
-
- Activity Date Commencement of Next Academic Session (III, V, VII & IX
- Semester) 13 July 2027
-
- University Festivals
-
- AKTU organizes several extracurricular and co-curricular events to
- encourage student participation and holistic development.
-
- Sports Fest
-
- Zonal Level: 15--17 October 2026 State Level: 29--31 October 2026
-
- Literary, Management & Technical (LMT) Fest

-
- Zonal Level: 07--09 January 2027 State Level: 21--23 January 2027
-
- Arts & Cultural Fest
-
- Zonal Level: 04--06 February 2027 State Level: 18--20 February 2027
-
- Examination Schedule
-
- The university follows a semester-based examination system.
-
- Odd Semester
-
- Theory Examinations: 24 November -- 27 December 2026 Practical
- Examinations: As per University Schedule Result Declaration: 15 January
- 2027
-
- Even Semester
-
- Theory Examinations: 20 April -- 20 May 2027 Practical Examinations:
- 01--24 May 2027 Result Declaration: 30 June 2027
-
- Internship & Training
-
- Students are required to complete Summer Training/Internship after the
- completion of the even semester examinations. The internship aims to
- provide:
-
- Industrial Exposure Practical Learning Skill Development Real-World
- Project Experience Professional Work Culture
-
- Internship Period: End of Semester Examination to 12 July 2027
-
- Important Academic Guidelines
-
- Minimum teaching hours prescribed by AKTU must be completed every
- semester. Institutes may conduct extra classes on weekends or holidays
- if required. A minimum of two class tests should be conducted in each
- semester. Students must maintain the minimum attendance prescribed by
- the university to become eligible for examinations. Attendance is
- monitored through the Attendance Monitoring System (AMS). Admit cards
- will not be issued to students with attendance below the prescribed

- requirement. Newly admitted lateral entry students may be required to
- attend additional classes to complete the syllabus.
-
- Academic Year at a Glance
-
- Semester Duration Odd Semester July 2026 -- December 2026
-
- Semester Duration Winter Vacation End of December 2026 Even Semester
- January 2027 -- May 2027 Summer Internship May 2027 -- July 2027 Next
- Academic Session Begins on 13 July 2027
-
- Summary
-
- The AKTU Academic Calendar 2026--27 provides a structured timeline for
- teaching, examinations, internships, result declaration, and
- extracurricular activities. It ensures uniform academic planning across
- a liated institutions while promoting timely completion of coursework,
- practical training, and overall student development.
-
- Part 6: Attendance Rules
-
- Attendance Policy -- AKTU B.Tech.
-
- Attendance Rules
-
- Attendance is an important academic requirement for all B.Tech. students
- at Dr. A.P.J. Abdul Kalam Technical University (AKTU). Every student is
- expected to attend classes regularly to ensure continuous learning,
- active participation, and eligibility for university examinations.
- Attendance is monitored by the institute and uploaded regularly through
- the Attendance Monitoring System (AMS) of AKTU.
-
- Minimum Attendance Requirement
-
- To be eligible for the End Semester Examination (ESE), students must
- maintain:
-
- Requirement Percentage Minimum Attendance 75% Recommended Attendance 85%
- or above Attendance is calculated separately for each semester.
-
- Students who fail to meet the minimum attendance requirement may not be
- permitted to appear in the university examinations.

-
- Attendance Calculation
-
- Attendance is calculated based on the total number of classes conducted
- during the semester.
-
- Formula
-
- $\text{Attendance (\%)} = (\text{Classes Attended} \div \text{Total Classes Conducted}) \times 100$
-
- Example
-
- Total Classes Classes Attended Attendance 100 82 82% 100 74 74% (Short
- Attendance) 120 96 80% Attendance includes:
-
- Theory Classes Tutorial Classes Laboratory Sessions Workshops Seminars
- (where applicable)
-
- Medical Leave Policy
-
- Students who are unable to attend classes due to medical reasons should
- inform the institute immediately.
-
- Required Documents
-
- Medical Certificate from a Registered Medical Practitioner Hospital
- Discharge Summary (if applicable) Leave Application Supporting Medical
- Records
-
- Medical leave requests are considered only after verification by the
- institute.
-
- Note: Submission of a medical certificate does not automatically grant
- attendance relaxation. Any relaxation is subject to the rules and
- approval of the institute and the university.
-
- Attendance Shortage
-
- Students whose attendance falls below the prescribed limit are
- considered to have short attendance.
-
- Consequences

-
- Warning issued by the department. Parents/Guardians may be informed.
- Student may be required to attend extra/remedial classes. Short
- attendance records are maintained by the institute. Student may become
- ineligible for semester examinations if the shortage is not resolved.
-
- Students are advised to monitor their attendance regularly through the
- institute's ERP/AMS portal.
-
- Detention Rules
-
- Students who fail to satisfy the minimum attendance requirement may be
- detained from appearing in the End Semester Examination. A detained
- student:
-
- Cannot receive the University Admit Card. Is not allowed to appear in
- theory examinations. May also be restricted from practical examinations,
- as per institute/university rules. Must complete the attendance
- requirement in accordance with university regulations before becoming
- eligible for future examinations. As per AKTU guidelines, the
- Director/Principal of the institute is responsible for ensuring that
- students with attendance below the prescribed minimum are not permitted
- to appear in university examinations.
-
- Attendance Monitoring System (AMS)
-
- AKTU uses the Attendance Monitoring System (AMS) to maintain accurate
- attendance records. The system helps in: Daily attendance recording
-
- Monitoring student attendance Eligibility verification Parent
- notifications (where applicable) Examination eligibility
-
- Students should regularly verify their attendance records through the
- institute portal.
-
- Student Responsibilities
-
- Every student should:
-
- Attend all theory and practical classes regularly. Maintain at least 75%
- attendance. Submit leave applications in advance whenever possible.
- Inform the department in case of prolonged illness. Check attendance

- records periodically. Participate in academic activities throughout the semester.
-
- Summary
-
- Regular attendance is mandatory for all AKTU B.Tech. students.
- Maintaining at least 75% attendance is essential for examination eligibility. Attendance is monitored through the university's Attendance Monitoring System (AMS), and students with attendance below the prescribed limit may face detention from semester examinations. Students are encouraged to attend classes consistently to ensure academic success and uninterrupted progression in the program.
-

• Part 8: Examination System

• AKTU B.Tech. Examination System

• Examination System

- AKTU follows a semester-based examination system consisting of Internal Assessment (Continuous Evaluation) and End Semester Examination (ESE).
- Students are evaluated through theory exams, practicals, viva voce, projects, assignments, quizzes, and class tests.
-

• Internal Assessment (IA)

- Internal Assessment carries 30 marks for most theory subjects and is conducted by the institute.
-

• Components

- Class Tests Assignments Quizzes Attendance Class Participation
-

• Continuous Evaluation

- Students are continuously evaluated throughout the semester based on:
-

- Periodic Tests Laboratory Performance Assignments Presentations
-

- Practical Work Attendance
-

- Continuous evaluation encourages regular learning and academic

- improvement.
-
- End Semester Examination (ESE)
-
- The End Semester Examination is conducted by AKTU at the end of each
- semester.
-
- Features
-
- University Conducted Theory-Based Examination Usually 70 Marks Covers
- the Complete Syllabus Held Twice Every Academic Year
-
- Practical Examination
-
- Practical examinations evaluate students' hands-on skills. Assessment
- includes: Lab Performance Experiment Execution Record File Practical
- Demonstration Internal & External Evaluation
-
- Viva Voce
-
- Viva Voce is conducted along with practicals and project evaluations.
- Students are assessed on: Subject Knowledge Practical Understanding
-
- Problem Solving Communication Skills Technical Concepts
-
- Project Evaluation
-
- Projects are evaluated during the final year based on:
-
- Problem Identification Design & Implementation Innovation Documentation
- Presentation Demonstration Viva Voce
-
- Both Project-I and Project-II contribute to the final assessment.
-
- Summary
-
- The AKTU examination system combines continuous internal assessment,
- semester-end theory examinations, practicals, viva voce, and project
- evaluation to ensure comprehensive assessment of students' academic
- knowledge, technical skills, and practical competence.
-
- Part 9: Grading & Evaluation

-
- Letter Grades
-
- O (Outstanding) A+ (Excellent) A (Very Good) B+ (Good) B (Above Average)
- C (Average) P (Pass) F (Fail) ABS (Absent)
-
- Grade Points
-
- O -- 10 A+ -- 9 A -- 8 B+ -- 7 B -- 6 C -- 5 P -- 4 F -- 0
-
- SGPA Calculation
-
- Calculated semester-wise using earned credits and grade points.
-
- CGPA Calculation
-
- Overall average of all semester SGPAs based on total earned credits.
-
- Passing Criteria
-
- Minimum passing marks as prescribed by AKTU. Pass separately in theory
- and practical (where applicable).
-
- Grace Marks
-
- Awarded only as per AKTU regulations (if applicable).
-
- Class / Division
-
- Awarded based on final CGPA/University rules.
-
- Part 10: Promotion & Academic Progression
-
- Promotion Rules
-
- Promotion to the next semester is governed by AKTU academic regulations.
-
- Carry-over Rules
-
- Students with back papers may continue to the next semester subject to
- university rules.
-

- Back Paper Policy
-
- Students can appear in carry-over examinations for failed subjects.
-
- Improvement Examination
-
- Available as per AKTU notification for eligible students.
-
- Year Back Rules
-
- Applicable if academic requirements are not fulfilled.
-
- Maximum Duration
-
- B.Tech. degree must be completed within the maximum duration prescribed
- by AKTU (normally 8 years).
-
- Part 11: Projects & Internships
-
- Summer Internship
-
- Mandatory industrial training after prescribed semesters.
-
- Industrial Training
-
- Industry exposure through organizations or companies.
-
- Mini Project
-
- Conducted in higher semesters to apply technical concepts.
-
- Major Project
-
- Final year capstone project based on real-world applications.
-
- Dissertation
-
- Applicable only if included in the curriculum.
-
- Evaluation Based on:
-
- Innovation Implementation Documentation Presentation Viva Voce

-
- Part 12: Honors & Minor Degree
-
- Eligibility
-
- Good academic standing. Minimum CGPA as prescribed.
-
- Credit Requirements
-
- Additional credits beyond regular curriculum.
-
- Registration
-
- Through institute/university approval.
-
- Completion
-
- Successful completion of required additional credits.
-
- Part 13: MOOC & Credit Transfer
-
- SWAYAM / NPTEL
-
- Students may complete approved online courses.
-
- Credit Transfer
-
- Credits may be transferred after university approval.
-
- Approval Guidelines
-
- Course must be approved by AKTU/institute before credit transfer.
-
- Part 14: Student Support Services
-
- Academic Advising Faculty Mentoring Central Library Digital Library
- E-Learning Resources Placement Cell Career Development Cell
- Entrepreneurship & Innovation Cell Incubation Support
-
- Part 15: Student Conduct & Discipline
-
- Code of Conduct

-
- Maintain discipline, honesty, and professional behavior.
-
- Anti-Ragging
-
- Strictly prohibited. Punishable under UGC and Government regulations.
-
- Anti-Sexual Harassment
-
- Zero tolerance policy. Internal Complaints Committee (ICC) available.
-
- Examination Malpractice
-
- Use of unfair means leads to disciplinary action.
-
- Disciplinary Action May include:
-
- Warning Fine
-
- Suspension Cancellation of Examination Expulsion (in serious cases)
-
- Part 16: Scholarships & Financial Assistance
-
- Available schemes include:
-
- Government Scholarships NSP Scholarships UP Scholarship Fee Waiver (TFW)
- Merit Scholarships Education Loan Assistance
-
- Part 17: Administrative Procedures
-
- Students can complete the following through the institute/AKTU ERP:
-
- Semester Registration Course Registration Fee Payment Examination Form
- Admit Card Download Result Transcript Request Migration Certificate
- Degree Certificate
-
- Part 18: Forms & Templates
-
- Common forms include:
-
- Leave Application Bonafide Certificate Transcript Request
-

- No Dues Form Internship Approval Form Project Approval Form
-
- Part 20: Appendices
-
